PROJECTS

Accumulator (Web app)

Developed a web-app using python with Django based on the concept of web-scraping to give its users a distraction free internet experience.

- This project has a home page with a search element which gets a query and gives the top nine results in a web-app named "TOP NINE".
- It also features a portal in which you can enter a link of an article, to get an auto-generated web page sans ADs
- This is an app that drops the chances of getting distracted over the internet

Ur Converter (Android app)

Developed a simple android app that lets its users perform simple conversions in an intuitive UI.
